(Basic White)

Lift Safety needed an economical, custom solution to display their products at trade shows. Two of these units display hardhats (far left and right), and for displaying safety apparel in the center.

Want something custom?

We love a challenge! Contact us for custom solutions.

*Please Note: Display and portable wall configurations may require additional supports or sections depending on your venue, activity level of patrons, how level your flooring is, and other considerations. While the walls will stand in these configurations, we urge customers to always err on the side of caution, and adequately test their configurations at each venue to be sure the walls cannot rock or be moved once set in place. For more information, please review our Terms and Conditions at <https://www.ParetiMobileWalls.com>.

DA LIBERO™

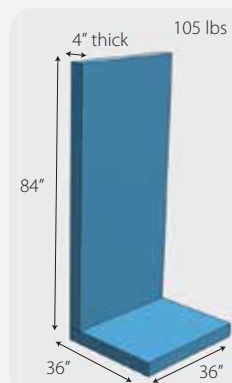

Hang lightweight items on back, with heavier items on the pedestal side.

Divide your space easily and simply with the strength and portability of Da Libero.

Specifications:

Da Libero features lightweight, machined studs and 1/4" MDF cladding. It stands 7 feet tall and has a 3 foot x 3 foot base, and weighs 105 lbs. Standard units feature removable foot glides, raising the unit 1/8". Casters may be substituted for an additional fee.

Pareti can also customize your order with additional counterbalance weights, or additional internal studs.

As with all of Pareti's products, counterbalance is key. Weight on the flat side of the unit must be less than the pedestal side.

Contact us if you plan on hanging more than 40 pounds, or if you plan on

hanging items which will extend past 5" from the unit's wall, as additional counterbalance or studs may be required for your specific application.

Our freestanding portable wall offers an easy way to divide your workspace. Best of all, unlike a permanent wall, you can move it as needed.

Here are some great ideas:

- Divide your retail space to create a small office area, while still using an area for displays or graphics.
- Use it in a restaurant to create a hostess stand and menu holder.
- Segment areas in your retail space or office
- Create an instant receptionist area.
- Create a waiting area for customers.
- Highlight key products with prominence.
- Give your displays a more professional look.
- Use ordinary hardware (nails or screws) to hang items.
- Add to your trade show display to show heavier products.
